

# Age-signal resume audit checklist

Go line by line. Every box you can't check is a place your resume is still signaling age instead of value.

- ☐ No dates older than 15 years unless load-bearing to this specific application

---
- ☐ Graduation year removed from education line

---
- ☐ Outdated certifications cut or listed without dates

---
- ☐ No objective statement

---
- ☐ Three-line summary in place of an objective, built around function and scale

---
- ☐ Every bullet has a number, a scope, or a concrete result attached

---
- ☐ No defensive or apologetic language about experience level

---
- ☐ Two-page limit held

---
- ☐ Single-column, ATS-readable formatting (no tables, no text boxes, no header/footer contact info)

---
- ☐ Saved as .docx or text-selectable PDF, never an image or scan
