

LinkedIn 30-minute fix checklist

Six fixes, thirty minutes. Work down the list in order.

- ☐ Photo updated within the last 3 years, well-lit, professional

- ☐ Banner states specialty and target industry, not a generic stock image

- ☐ Headline leads with function and industry, not years of tenure

- ☐ Skills section reflects current tools actually used

- ☐ Two thoughtful comments posted on relevant industry content this week

- ☐ "Open to work" set to recruiters-only if not ready to broadcast publicly
